Record 3 - Pebble storage kit

Asset ID: LAB-308

Quantity: 4 units

Memory label: not applicable

Storage label: 500 GB SSD

Shelf: C-07

Total listed units: 9

Read the labels exactly. Do not infer unprinted specifications.

Workshop handoff checklist

Fictional OCR practice document

This page continues the invented inventory on page 1.

It is a reading and transcription exercise, not equipment service advice.

Job ID: LAB-W014

Reference document: HV-OCR-01

Session date: 2026-10-15

Session time: 09:30 to 10:15

Assigned bench: D-05

Read the six steps in order

1. Find LAB-101 on shelf A-03.

Confirm the name Cedar workstation and the quantity of 2 units.

2. Find LAB-204 on shelf B-12.

Confirm the name Kestrel graphics board and the quantity of 3 units.

3. Find LAB-308 on shelf C-07.

Confirm the name Pebble storage kit and the quantity of 4 units.

4. Check that $2 + 3 + 4$ equals 9 listed units.

Keep the memory and storage labels attached to the correct record.

5. Copy each asset ID, quantity and shelf without changing them.

If a character is unclear, compare it with the page image.

6. Record any unreadable field as needing review.

Do not replace uncertainty with a guessed name or number.

Review status: practice copy only

Retain the original scan and the unedited OCR result.
